

Immediate Advice of an Operating Incident

TPWS Activation

Date: 28/02/2023
Location: SN144 – Up Relief

Known Details of Incident

Immediate Advice for Drivers

Hayes and Harlington to Abbeywood service.

The driver of 9U07 experienced a TPWS brake activation whilst travelling towards SN144 on the Up Relief. At this time SN144 was displaying a signal at danger.

- What measures do you have in place to reduce risks when approaching/driving under restrictive signals**
- What PPS do you use to mitigate the risk of distraction and maintain concentration**
