Liverpool Street (Platforms 1-4)

As you are aware since their original introduction the class 345 trains have been prohibited from operating over the Suburban Lines between Bethnal Green (west) Junction and Liverpool Street station, and have also previously been prohibited from operating into platforms 1-4 at Liverpool Street (High Level) station.

Following the final stepping and gauging trials the class 345 trains are now permitted to operate in passenger carrying service over the Suburban Lines and into platforms 1-4 at Liverpool Street (High Level) station, Please also be aware that if a train is detained at any of the signals in the Liverpool Street station throat area (L54,L56,L57,L58,L59,L60) or is stopped between signals or entering a platform we must contact the signaller immediately using the yellow "Urgent" call function to advise.
